

## AVOID SHIPPING LOSSES

Graphic Controls is pleased to introduce the TrekTag Cellular real time data logger to manage and control your products while in-transit. This easy to use system provides instant global visibility at an affordable cost. Simply initiate a shipment and place the TrekTag Cellular Logger in the box or carton. Our cloud-based monitoring platform will immediately begin reporting location, temperature and humidity allowing you to track your products from anywhere. Call us today and avoid shipping losses!

### FEATURES:

Real time temperature and relative humidity measurement

High precision temperature and humidity sensor

Cloud-based analytics at no additional charge

Temperature, humidity and location tracking from anywhere

Easy to use

### SPECIFICATIONS:

<b>Usage Type</b>	Single Use
<b>Inner Lithium Battery</b>	Built-in 3.7V/3000mAh Lithium Battery
<b>Working Life</b>	Max 60days
<b>Accuracy of Temp and Humidity Sensor</b>	Temp: $\pm 0.3^{\circ}\text{C}$ ; Humidity $\pm 3\% \text{RH}$
<b>Working Temperature Condition</b>	$-20^{\circ}\text{C}$ to $60^{\circ}\text{C}$
<b>Working Humidity Condition</b>	Up to 85% (non-condensing)
<b>Transmit Interval</b>	15mins
<b>Dimension</b>	90mm * 64mm * 27mm (3.54in * 2.52in * 1.06in)
<b>N.W.</b>	138g
<b>Tracking Platform</b>	graphiccontrols.com/TrekTag

### HOW TO USE:

Press the button to start

Place into the box or carton

Logging & Temperature & RH data

Access cloud platform to view data
